Cookie Notice

Our websites and applications use cookies to ensure optimal performance, enhance user experience, and provide essential functionality.

What Are Cookies

Cookies are small text files stored on your device when you visit a website or use an application. They help remember your preferences, such as language settings or region, and make navigation smoother and faster. Cookies do not harm your device and do not contain sensitive information like personal data, email addresses, or payment details.

Types of Cookies We Use

1. Essential Cookies

These cookies are required for the basic operation of our websites and applications. They are set automatically when you access our services and cannot be disabled through the cookie banner. These cookies do not store any personal data.

2. Functional Cookies

These cookies allow the website to remember your choices (such as language preferences) and provide a more personalized experience.

3. Analytical cookies

We use these cookies to collect information about how visitors use our website. This helps us understand which parts of the site need improvement and how appealing it is to users. The data we process — including personal information such as IP addresses — is anonymized, meaning that it cannot be used to identify an individual visitor.

4. Targeting Cookies

These cookies are used to track your activity on and off our website. They can be used to display targeted ads that are more relevant to you based on your interests. Such cookies typically monitor your browsing behavior and involve the processing of your personal data. We only install these cookies with your consent.

Cookie Preferences and Consent

Each application uses its own set of cookies.

When you first access one of our websites or applications, you will be asked to choose which types of cookies you wish to allow. Your preferences are saved in a dedicated cookie on your device until you change or delete it.

You can update your cookie settings at any time through the user interface provided in the application or in your browser settings.

Managing or Disabling Cookies

Most browsers allow you to manage or disable cookies within their settings. You can also set specific rules for individual websites or delete existing cookies whenever you wish.

Instructions for enabling or adjusting cookie settings can be found here:

- Google Chrome
- Internet Edge
- Mozilla Firefox
- Opera
- Safari

Keep in mind that disabling certain cookies may limit functionality or affect the performance of our websites and applications.

Scope of This Notice

This notice applies to all of our websites, applications, and digital services that use cookies. Individual applications may include additional cookies or settings that are covered under this general notice.
